Dear Sir:

In response to the Office Action mailed January 15, 2002, please amend the application as follows:

The Claims

Please add the following new claims.

15. A software program for implementing a website by which documents can be shared between a service provider and a client, the software program comprising:

instructions for accessing a repository, the repository for storing a plurality of documents;

a first graphical interface by which a first user associated with the service provider can log into the network application, can add one or more documents to the repository, and can assign a category, an authorization, and a matter for each document;

instructions for identifying one or more clients, each client comprising one or more users having a level of authorization with respect to matters of the client;

an email interface linked to the first graphical interface, the email interface including a list of potential email recipients selected according to at least one client, the category and the matter;

a second graphical interface by which a second user associated with a client can log into the network application and can access one or more of the documents in the repository, based on the
